## PRODUCT DATA

### ZEFATECH® AS 992 F

Food Grade Silicone Lubricant

**DESCRIPTION** ZEFATECH® AS 992 F is a selected blend of silicone fluids to provide a light lubricating film for use in industries where a clear film is preferred for reducing friction between moving surfaces.

ZEFATECH® AS 992 F can also be used for mold release purposes.

**APPLICATION** Ideal for slides, runners, guide rails and sticking occurs and the use of an oil based product is not acceptable.  
Plastic chain runners when noise squeaks are detected.  
Mold release agent for plastics and rubbers.  
Dry bright polish for vinyl and hard surfaces.

<b>SPECIFICATION</b>	Appearance & Odor	: Colorless with hydrocarbon odor
	Boiling Point	: 198° F (Concentrate)
	Specific Gravity at 70° F	: 0.64
	Solubility in Water	: Negligible
	Temperature Range	: -50 to + 200°C

**CAUTIONS** Keep a way from heat and direct sunlight. Store below 50°C.

**BENEFITS** Clean, light, non toxic lubricating film.  
Quick and easy to apply.  
Resists oxidation and corrosion.  
Water repellent  
Authorised by USDA for use in federally inspected meat and poultry plants.  
H1 rating for lubricant incidental contact, non toxic, colorless and odorless.

**PACKAGING** : 450 ml Aerosol Can, 12 Cans per Carton Box
